

# REGION 3

## anchor updates

### ANCHOR WELCOME

It is already August! Just when the heat outside has passed (hopefully for the year), it is starting to heat up in Demonstration Year 4 (DY4). In the coming months, Region 3 will be represented at the HHSC hosted Statewide Learning Collaborative in Austin; complete the final report for DY4 in October; monitoring the development of Waiver Renewal Application; and, plan and attend the RHP3 Learning Collaborative in December. Though implementation of the Waiver is well on its way in RHP3, it is important to remain vigilant on all the moving pieces and to take full advantage of the resources available. More information on these resources will be shared at the Statewide Learning Collaborative where the Baylor Teen Health Clinic will be spotlighted. Other resources that are available include the HHSC Tableau Dashboard, Readmissions Cohort, statewide regional learning events and, of course, your Anchor Team. Learn more about these resources in this month's newsletter and through your Regional Liaison. Our gratitude for all of your hard work continues to grow as we round out DY4 and begin to consider the future of all Waiver activities. As always, Keep Calm and DSRIP On! ◀

### PROJECT SPOTLIGHT

#### Baylor College of Medicine

The project highlighted below is the Baylor College of Medicine Teen Health Clinic (BTHC). The project provides primary care, reproductive, and psycho-social services to low income adolescents between the ages of 13-24. As a result of establishing this teen clinic, Baylor College of Medicine has increased access to primary care and reproduction services which aligns with our Region 3 goals.

In 2013, Baylor College of Medicine Teen Health Clinic (BTHC) had nine locations throughout inner city Houston. BTHC offers accessible, age-appropriate, comprehensive primary care and reproductive health services to adolescents and young adults living in inner-city Houston, where economic and health disparities are the greatest. Its services include family planning, screening and treatment for STI and HIV, mental health screening, immunization, health risk reduction education, prenatal care, sports physicals, wellness exams, nutrition services, counseling and case management. ▶

### NMI Response

Congratulations RHP 3!  
All NMI responses were approved for our region. ▶

### Do You Tableau?

This month, HHSC released the Tableau Dashboard, a new interactive tool that enables anyone to search active DSIRP projects by RHP, Provider Name, Provider Type, Project Option, Primary Project Type, and Category 3 Outcome for the entire state of Texas. Tableau is a business intelligence tool that is used across more than twenty diverse industries including banking, aerospace, and insurance. The dashboard presents Category 1-3 data in a variety of user-friendly summaries and graphs. Tableau is designed so that people of any skill level can use the tool to analyze real-time data, draw insights, and share information quickly and efficiently. Data graphs and summaries from Tableau can be shared via email, web conference, and can also be downloaded in an excel format. Explore the new Tableau tool on HHSC's website [HERE](#) and learn more about the company by [CLICKING HERE](#). ▶

## Statewide Learning Collaborative

→ Region 3 Statewide Learning Collaborative Poster Selections

Congratulations to all of the providers selected to present posters at the Statewide Learning Collaborative hosted by HHSC! The Collaborative will be held August 27-28 in Austin, TX. This year, HHSC is providing streaming access to allow interested stakeholders to view sessions held in the Grand Ballroom each day, no registration is needed.

[CLICK HERE](#) to view the agenda for this year.

[CLICK HERE](#) to access the live stream when it becomes available on August 27th. ◀

### Category 1-3 Baseline Reviews

As a reminder, Category 1 and 2 baseline reviews for DY2 and DY3 have been postponed and are expected to resume in September or October 2015. Category 3 baselines are being audited now and are expected to last through the end of September 2015. Thank you for all the diligence and cooperation with Myers and Stauffer LC to complete baseline reviews.

Myers and Stauffer will contact providers directly when a baseline has been selected for review. Please communicate directly with Myer and Stauffer in a timely manner to help ensure the process moves efficiently. We understand the review process is new for providers and as your Anchor team we are always here to help.

In DSRIP, it pays to be proactive. Check baselines internally as this helps ensure the information being reported each period is accurate and that it can be validated. Please [CLICK HERE](#) for a description of the baseline review process as described by HHSC. ◀

### Required Dates and Deadlines

**August 27th and 28th, 2015** - Statewide Learning Collaborative (Austin, TX)

**May 2015 through September 2015** - Category 3 baseline review - baseline correctness

### Readmissions Cohort Re-launch

The Readmissions Cohort was relaunched on August 18th! Thank you to all who participated. The cohort partnered with TMF Health Quality Institute to put readmissions in RHP 3 into focus - using Medicaid, Uninsured, and Medicare data for a more comprehensive picture. The Readmissions Cohort will be creating a charter and setting goals for the workgroup at the next meeting. [CLICK HERE](#) for all supporting documentation and meeting notes available on our website. The next meeting date will be announced via email.

If you are interested in joining the Readmissions Cohort, please contact Michelle Eunice at [Michelle.Eunice@harrishealth.org](mailto:Michelle.Eunice@harrishealth.org) or [setexasrhp@harrishealth.org](mailto:setexasrhp@harrishealth.org) for more information. ◀
