2. ORAL HEALTH ASSESSMENTS & FLUORIDE VARNISH
3. PATIENT REFERRAL
4. PATIENT NAVIGATION AND CASE MANAGEMENT

ORAL HEALTH EDUCATION

HISTORY HCPHES has worked with more than 15 school districts to support oral health education for over 18 years. We continue to provide “Smile Savers Containers” at no-cost to school nurses in order to ensure sustained oral health education efforts in their schools.

CONTENT Utilizing online resources from the Texas Department of State Health Services Oral Health Program (2014), our Registered Dental Hygienists created an age-appropriate and interactive educational oral health lesson.

DELIVERY The Oral Health Education component is presented in a classroom-based setting to ensure the entire school is captured in 1 to 2 days. Our experienced and trained Oral Health Educators deliver the curriculum in 30-40 minute long sessions.

SUPER SMILE SAVERS “MOBILE CLINIC”

- WHO** Lucky schools through out Harris County!
- WHAT** Free Oral Health Assessments and Fluoride Varnish Applications for all children who return a signed consent form.
- WHERE** At your school in a room designated for our mobile clinic.
- WHEN** Events are usually 2-4 days: 1-2 days of Oral Health Education followed by 1-2 days of Oral Health Assessments.

SUPER SMILE SAVERS “MOBILE CLINIC” (CONT.)

- Fully-Staffed, Structured Clinic
- Licensed and Trained Professionals
- Industry Safety and Hygiene Standards
- Evidence-Based Fluoride Varnish Treatment
- Expert Oral Health Assessments

PATIENT REFERRALS

AFTER THE MOBILE CLINIC *OUR WORK AND COMMITMENT CONTINUES...*

- Children identified as needing follow up care will be given a referral to a community provider for care.
- Referral resources are researched to verify they accept new patients, and they are mapped out to allow a choice of providers in the area the family resides.
- The purpose of this component of the program is to encourage the establishment of a dental home.
