Purpose:

To provide an update and review on current issues and topics related to Transformational Healthcare in Texas Region 3. Emphasis will be placed on data collection, data sharing and reporting as a means to improve Category 3 and Category 4 outcomes of Region 3 as well as reviewing the status of RHP3 cohorts as they move through the IHI Process Improvement Model.

Objectives:

After attending these sessions, participants should be able to:

1. Updated on the current status of Region 3 projects post DY2 reporting
2. Improved understanding on data collection and reporting related to Category 4 using new features of Performance Logic
3. Increased knowledge of learning collaborative cohorts and opportunities
4. Commit to sharing data on DSRIP Projects

Target Audience:

Project owners, community collaborators and stakeholders in RHP3

Format:

The format for this seminar consists of lectures, each followed by a question and answer period. There will be table top breakouts to support critical thinking related to data sharing for projects and further opportunity for networking, questions and answers. This will include an exercise related to data sharing commitments and strategies. The sessions are designed to facilitate exchange of information and dialogue between presenting faculty/facilitators and participants.

Other Items:

A *Celebration of Success* Showcase area will allow Performing Providers the opportunity to share some of their DSRIP success stories in the form of posters, PowerPoint presentations, videos, brochures and pictures. Special emphasis will be placed on providers and projects that raise the floor/raise the bar in terms of transformational healthcare. We will be raffling off three gift baskets: 2 for attendees and 1 for showcase participants.
