

11145 - Texas Healthcare Transformation & Quality Improvement Program

Speed Networking Session

The goal is to learn about as many projects and project stakeholders as possible in order to provide additional project resources and learn about projects and services that may be beneficial to patients within RHP 3.

What to Expect:

1. At a minimum, participants should provide their name, organization, and title or role within the project.
2. Each participant will have 1 ½ minutes to share the information about themselves and their project followed by a final 1 ½ minutes for general discussion
3. Participants will then have 30 seconds to switch to the next connection
4. A minimum of 10 minutes will be allotted at the end of the session for additional networking with anyone in the room.

Tips for a successful networking experience:

1. Avoid going over your allotted time to talk
2. Have fun!
3. Bring plenty of business cards
4. Follow-up with your new connections after the Learning Collaborative!

Consider the following as potential topics

- Your Background
- Your Organization
- Project Description
- Your role
- Project Locations
- Recent/Planned Openings
- Target Population
- Challenges/Successes
- Metrics/Milestones
- Category 3 Outcome Measure(s)
- Staffing Needs
- Unique Resources or Tools that you are using
- Anything Interesting about you or your project that you would like to share
