A contact designated as "Both" will be included in the RHP Plan, on the DSRIP Provider Distribution List, and will be given access to the DSRIP Online Reporting System.

#### Section 3: Optional Withdrawal From DSRIP

Please select an option below. By selecting "Yes - Withdraw from DSRIP," this organization acknowledges it understands that any DY6 DSRIP payments will be recouped as required by the DY6 Program Funding and Mechanics Protocol. This does not include recoupment of DY4-5 payments that may have occurred in DY6 due to allowable carryforward.

Do Not Withdraw from DSRIP	
Section 4: Performing Provider Overview	
Performing Provider Description:	Texas Children's Hospital is an internationally recognized, full-care pediatric hospital located in the Texas Medical Center in Houston. One of the largest pediatric hospitals in the United States, Texas Children's is dedicated to providing the finest possible pediatric patient care, education, and research. Since opening its doors in 1954, the Hospital has cared for children from every corner of the world alongside its academic partner, Baylor College of Medicine. Together, Texas Children's and Baylor represent one of the most active and government supported pediatric research programs across the U.S. Investigators are conducting innovative research in nearly every pediatric subspecialty with the goal of quickly translating discoveries into breakthrough treatments for children and pregnant women across the globe.
Overall DSRIP Goals:	Texas Children's overall DSRIP goals center on implementing delivery system reforms that increase access to health care, improve quality of care, and enhance the health of the patients and families that we serve. Implementing these delivery system reforms also aligns with the Institute for Healthcare Improvement's (IHI) triple aim, to improve patient experience, enhance population health, and reduce the per capita cost of care.
Alignment with regional community needs assessment:	Texas Children's DSRIP efforts aim to address the needs outlined in the Southeast Texas RHP - Region 3 Community Needs Assessment, which closely align with the needs identified in Texas Children's Community Health Needs Assessment. From chronic disease and poor birth outcomes to limited access to maternal, primary, and specialty care, Texas Children's Hospital is committed to developing and sustaining system-wide initiatives that recognize Texas Children's role as a health care leader for the region and country.

#### Section 1: Attributed Population

## Attributed Population for Hospital For Hospital organizations and Physician Practices, the DSRIP attributed population includes individuals from the DSRIP system defined in Category B that meet at least one of the criteria below. Individuals do not need to meet all or

multiple criteria to be included.

a. Medicaid beneficiary attributed to the Performing Provider during the measurement period as determined by assignment to a primary care provider (PCP), medical home, or clinic in the performing providers DSRIP defined system OR

b. Individuals enrolled in a local coverage program (for example, a county-based indigent care program) assigned to a PCP, medical home, or clinic in the performing providers DSRIP defined system OR

c. One preventive service provided during the measurement period (includes value sets of visit type codes for annual wellness visit, preventive care services - initial office visit, preventive care services - established office visit, preventive care individual counseling) OR

d. One ambulatory encounter during the measurement year and one ambulatory encounter during the year prior to the measurement year OR e. Two ambulatory encounters during the measurement year OR

Other populations managed with chronic disease in specialty care clinics in the performing providers DSRIP defined system

One emergency department visit during the measurement year OR

. One admission for inpatient or observation status during the measurement year OR

One prenatal or postnatal visit during the measurement year OR

One delivery during the measurement year OR

. One dental encounter during the measurement year OR Enrolled in a palliative care or hospice program during the measurement year

Please describe any other attributed population (optional).

improvement in this Measure Bundle. Texas Children's primary DSRIP goals are to implement system-wide reforms that increase access to health care, improve quality, and enhance the health of patients an families. The Southeast Texas RHP - Region 3's 2015 Community Needs Assessment identifies high rates of chronic diseases, like asthma, and inadequate access to services for these diseases, as a key challenge for the region. Texas Children's 2016 Community Health Needs Assessment also identifies asthma as a regional challenge, pointing out that asthma was the second leading cause of hospitalizations for children aged 1–17 in Texas in 2013. Selecting the pediatric asthma management bundle,

Section 1: Measure Exemption Requests and Measure Setting System Components Complete

Section 1: Measure Exemption Requests and Measure Setting System Components In order to be eligible for payment for a measure's <u>reporting milestone</u>, the Performing Provider must report its performance on the all-payer, Medicaid-only, and LIU-only payer types. Performing Providers may request to be exempted from reporting a measure's performance on the Medicaid-only payer type or the LIU-only payer type with good cause, such as data limitations. Note that reporting a measure's all-payer performance is still required to be eligible for payment for a measure's reporting milestone.

#### Section 1: Transition from DY2-6 Projects to DY7-8 Provider-Level Outcomes and Core Activities

DY6 Project ID	Project Option	Project Summary	Completed/ Continuing	Enter a description for continuation (optional)
RHP 3_139135109.1.1	1.9.2	The Neurology Service will focus on provider productivity and hire additional clinical providers in order to expand internal capacity.	Completed in DY2 6	
RHP 3_139135109.1.10	1.9.2	Expand the training of subspecialists, expand the role of a referral center to better allocate children with different needs to a provider that can best suit their needs, refine the role of a Primary Care Pediatrician to help provide long term care, and expand internal provider capacity and hire additional clinical workers.	Completed in DY2 6	
RHP 3_139135109.1.11	1.9.2	Increase outpatient access for Harris County and the surrounding communities to care for pediatric patients with allergy, asthma, primary immunodeficiency and secondary immunodeficiency	Completed in DY2 6	
RHP 3_139135109.1.12	1.9.2	Increase outpatient access for Harris County and surrounding communities to care for pediatric patients with hearing loss to sinus disease and swallowing abnormalities and those patients with disorders of the ear, nose, and/or throat.	Completed in DY2 6	
RHP 3_139135109.1.13	1.9.2	The Plastic Surgery division has and will continue to add clinic coverage at Texas Children's West Campus and expand its clinical locations.	Completed in DY2 6	
RHP 3_139135109.1.14	1.9.2	Increase access to pediatric neurology services provided through Texas Children's Neurology Division by: 1) utilizing advanced practice providers to see lower acuity pediatric neurology patients, thereby allowing neurosurgeons to see more complex pediatric spine and epilepsy patients; and 2) expanding services to fetal, craniofacial and trauma cases.	Completed in DY2 6	
RHP 3_139135109.1.15	1.9.2	Increase access for children to pediatric subspecialty services in the Orthopedic Surgery clinic at Texas Children's Hospital. Within the next five years the division would like to enhance its sub-specialization in the following areas of Sports Medicine, Orthopedic Oncology, Leg and Limb Deformity, and Hand/Upper Extremity.	Completed in DY2 6	
RHP 3_139135109.1.16	1.9.2	Create access resources which will allow us to diagnosis women quicker and enhance their quality of life. Educating and training obstetricians and pediatricians to improve screening in post-partum depression.	Completed in DY2 6	
RHP 3_139135109.1.2	1.9.2	Increase capacity in Texas Children's Cancer and Hematology Clinic	Completed in DY2 6	
RHP 3_139135109.1.3	1.9.2	Increase critical access for the Harris County and surrounding communities to care for pediatric pts with diseases characterized by inflammation of the joints, muscles and/or tendons.	Completed in DY2 6	
RHP 3_139135109.1.4	1.9.2	Increase outpatient access for Harris County and the surrounding communities to care for pediatric patients with congenital heart disease	Completed in DY2 6	
RHP 3_139135109.1.5	1.9.2	Increase outpatient access for Harris County, specifically North Houston, to care for pediatric patients with conditions affecting the lungs and respiratory tract.	Completed in DY2 6	
RHP 3_139135109.1.6	1.9.2	Increase access to pediatric opthalmology services provided through Texas Children's Opthalmology Clinic by: 1) adding an optometrist to see lower acuity pediatric opthalmology patients, thereby allowing ophthalmic surgeons to see more complex pediatric ophthalmology patients; and 2) expanding services over the next five years with programs such as Ocular Trauma, Ocular Plastics, Pediatric Glaucoma and focus of the Retina can Cornea pediatric patients.	Completed in DY2 6	
RHP 3_139135109.1.7	1.9.2	Increase outpatient access for Harris County and the surrounding communities to care for pediatric patients with conditions affecting the digestive system.	Completed in DY2 6	
RHP 3_139135109.1.8	1.9.2	Increase outpatient access for Harris County and the surrounding communities to care for pediatric patients with conditions affecting the endocrine system.	Completed in DY2 6	
RHP 3_139135109.1.9	1.9.2	Increase the number of children evaluated for abuse and neglect by a child abuse specialist by increasing clinic appts and the number of providers	Completed in DY2 6	
RHP 3_139135109.2.1	2.2.6	Target adolescents/young adults with significant chronic childhood conditions, define interventions in care transitions from pediatric providers to a medical home with services provided by adult providers, and expand chronic care management model to capture more of the Medicaid population.	Completed in DY2 6

In alig throu team devel achie outco safety Patieu Key D Event rates Exam and lo	e enter a description of this Core Activity gnment with the Solutions for Patient Safety national collaborative, Texas Children's works gh 12 hospital acquired conditions (HAC) teams to eliminate preventable harm. Each HAC works to implement & measure a standardized harm prevention bundle. Bundles are oped by identifying best practices of top performing pediatric hospitals in the nation, ving high reliability with the practice, and then testing their association with improved mes. In addition to the implementation of the prevention bundles, Texas Children's overlays y culture work including Error Prevention Methods, Leadership Methods, Cause Analysis, ti and Family Engagement, and Employee/Staff Safety. viver diagrams are set and followed for CLABSI, CAUTI, Surgical Site Infections, Adverse Drug s, and Pressure Injuries. Control Charts displaying both outcomes and bundles compliance are followed on a monthly basis to identify trends and take relevant actions. ples of Safety culture work include Error Prevention Training for all new employees, faculty, earners, reporting through to the board level, daily operational safety briefings, unit safety les, and regular senior leader walk rounds.
