Section 3: Optional Withdrawal From DSRIP

Please select an option below. By selecting "Yes - Withdraw from DSRIP," this organization acknowledges it understands that any DY6 DSRIP payments will be recouped as required by the DY6 Program Funding and Mechanics Protocol. This does not include recoupment of DY4-5 payments that may have occurred in DY6 due to allowable carryforward.

carryrorward.	
Do Not Withdraw from DSRIP	
Section 4: Performing Provider Overview	v
	Fort Bend County Health & Human Services Department and Behavioral Health Services Department jointly created a government, community agency
Performing Provider Description:	and private provider collaboration to improve the health outcomes of residents using innovative programs. The collaboration includes formal
	contractual agreements, sub-county department partnerships, and community agency referrals, shared resources and partnerships.
	The overall DSRIP goals are based on the Fort Bend County vision for health care transformation to Right Care, Right Place, Right Time. The objective
	is to develop a system of care, collaborated through the various community programs and agencies that identifies clients and families needing health
Overall DSRIP Goals:	improvement and to provide the coordinated and appropriate level of care and support, addresses social determinants of health, supports ongoing
	recovery and wellness, reduces episodic crisis care, incarceration and unnecessary hospitalization.
	Access to Care:
	Expand availability and access to healthcare services including behavioral health services.
	Continue to extend office hours for primary care providers to increase the number of available appointments including after hours.
	Grow navigation services to help patients identify available services and programs, especially for low-income individuals.
	• Continue to support and develop the network of public health and social service organizations to enhance safety net services for uninsured/under-
	served populations.
Alignment with regional community needs assessment:	Inadequate Transportation Options for Individuals Needing Health Care Services:
assessment.	Identify transportation problems within specific communities and develop local solutions
	Chronic Disease and Poor Health:
	 Proactively identify barriers to self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management of chronic diseases and behavioral health conditions such as appropriate access to care, obtaining are self-management access to care, obtaining are s
	prescriptions and maintaining long term medication adherence (such as affordability or access to a local pharmacy). Develop solutions to increase access to the right level of care and support, improve medication adherence, which will lead to improved health outcomes and prevent complications
	as well as avoidable hospital admissions.

	chmond and Missouri City for adult care only. Access Health's clinics have adult-only clinics within them. Children and OB/GYN are tracted services with FBC so they are excluded from the FBC DSRIP system.
Please list your "Other" system component.	
FBC Behavioral Health Services Department	

Please enter a description for this "Other" system component.

o FBC Behavioral Health Services Department, located at 301 Jackson Street is an intake office	ce. Much of the care provided after intake is in other community-based set	tings
FBC includes these service delivery sites in the system definition.		

o Organizationally, Behavioral Health Services is part of Fort Bend County's Administration of Justice Division, not part of FBC Health and Human Services. It is owned and operated by FBC. The following services are part of Behavioral Health Services:

o Recovery and reintegration: for adults with mental health disorders who are involved in criminal justice and need intensive case management and wrap around services. Services originate upon intake at 301 Jackson Street but also occur in the home, in court, and in jail. This population is part of the DSRIP projects.

o Juvenile diversion: same as above but for children. Services originate upon intake at 301 Jackson Street but also occur in the home, in court, in school, and in jail. This population is part of the DSRIP projects.

o Crisis Intervention Team: jointly administered with the FBC Sherriff's office. Clients do not originate in intake at 301 Jackson St. They originate from CIT responding to mental health crises throughout the county as a result of 911 calls.

o Individuals receiving court ordered forensic assessment services (e.g. compentency to stand trial assessments) are not included in our system definition.

o Children and parents involved in our CPS courts that receive court ordered services are not included in our system definition.

Please list your "Other" system component.

Section 1: Attributed Population

Attributed Population for Local Health Department (LHD)

Individuals with one eligible encounter during the measurement period

Please describe any other attributed population (optional).

Section 2: Selection Overview

Please describe your rationale for the selected measures, and describe the primary system components (clinics, facilities) that will be used to report on and drive improvement in selected measures.

The system components include our local FQHC, mobile units, and behavioral health crisis response system as well as recovery and support programs. Below is a listing of the system components:

• The FQHC is AccessHealth located in Fort Bend County

Mobile units include Fort Bend County Community Paramedics, Fort Bend County EMS and Fort Bend County Crisis Intervention Team

Behavioral health crisis response and intervention are administered at the Fort Bend County Behavioral Health Services located at 301 Jackson Street, Richmond, TX

• Behavioral health recovery, support and jail/ detention diversion programs are administered at the Fort Bend County Behavioral Health Services located at 301 Jackson Street, Richmond, TX

Below is a list of the measure selections:

• L1-105: Preventive Care & Screening: Tobacco Use: Screening & Cessation Intervention

o Process for Selection: While our integration of behavioral health into primary care addresses identification of various substance use issues that impact patient health and the ability to follow through with a medical plan, tobacco is the most commonly identified substance use in the patient population. Measuring the outcome of intervention on this one behavioral health issue is a marker for the overall effort of addressing substance use in the population. o System Components: Family practice adult patients at the FQHC, AccessHealth

• L1-107: Colorectal Cancer Screening

o Process for Selection: Colorectal cancer is among the ton five causes of death due to cancer in Fort Rend County. The uninsured nonulation is most at risk for late diagnosis and missed prevention opportunities due to the high cost of

screening. Improving the screening rate in a clinic population, which is predominately uninsured, will assist in lowering the death rate due to this disease in the population. o System Components: Family practice adult patients at the FQHC, AccessHealth

• L1-115: Comprehensive Diabetes Care: Hemoglobin A1c (HbA1c) Poor Control (>9.0%)

o Process for Selection: Diabetes care continues to be a priority within Fort Bend County. The collaboration with our Local FQHC, AccessHealth, enhances the ability to model an appropriate, pro-active, comprehensive treatment approach for the high risk diabetic population through coordinated care and nutrition services.

o System Components: Family practice adult patients at the FQHC, AccessHealth; Fort Bend County Community Paramedic program

• L1-205: Third next available appointment

o Process for Selection: Timely access to primary care is a critical component of an effective healthcare delivery system, especially in the uninsured population. Available appointments when needed for sick care may avoid high cost resources, such as emergency departments. Third next available appointment measures timely available access to primary care and promotes continuity of care in a medical home. o System Components: Family practice adult patients at the FQHC, AccessHealth

Are you finished allocating your Category C valuations across your selected measures?

Explanation of Valuation Percent Changes

Overall justification for change in Category C valuation distribution.
L1-241: Valuation increase to reflect the IGT investment, the scope of services and costs of core activites related to behavioral health services
essential to meet the desired outcomes. The demand for services related to this measure is projected to increase overtime with the
significant population growth in Fort Bend County.
L1-207: Valuation decrease to reflect the enhancement of and assurance of health improvement best practices for the existing diabetes care
model and not a unique activity.
Please address the amount of improvement required for the Measure Bundle(s) with increased valuation including estimated baseline and goals for key measures that may require high amounts of improvement within the bundle.
Review of DYS and DY6 data indicated an increase in the number of individuals with potentially preventable admissions and readmissions
into the criminal justice system for both adults and youth. The provider, Fort Bend County Behavioral Health Services, has worked to
establish processes and services to improve on this outcome. Continued and enhanced support for these activities justify the increased
valuation for this measure. As a local health department, we have a limited selection of measures related to behavioral health even though
many of our DSRIP projects have addressed this essential need in our community. An increasing demand in services and the significant
population growth will require an even greater effort in order to maintain successful outcomes, which also justifies the increased valuation
of 11-241
Name address the level of affect service disc increases for the Manuae Duralla(s) with increased velocities

Please address the level of effort required for improvement for the Measure Bundle(s) with increased valuation. Maintain current effort with increasing population growth and demand for service

Please describe the size of the population impacted as compared to the size of other selected Measure Bundle(s) for the Measure Bundle(s) with increased valuation.
This measure impacts more individuals than any of the other measures.

RHP 3_296760601.1.2	1.1.2	Expand the hours of operation of the local Federally Qualified Health Center to increase access to primary care for the Medicaid, uninsured and underinsured population in the county.	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.1	2.9.1	Expand patient navigation services to a subset of the uninsured and underinsured population in the county which uses EMS and ED services inappropriately for non- emergent conditions and has no means to pay for the services	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.2	2.13.1	Design, implement and evaluate a program that diverts youth with complex behavioral health needs such as serious mental illness or a combination of mental illness and intellectual development disabilities, substance abuse and physical health issue from initial or further involvement with juvenile.	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.3	2.3.2	Provide primary care to individuals who call 9-1-1 for non-emergent conditions.	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.4	2.7.1	In cooperation with local health care providers, provide colonoscopy screening to uninsured and underinsured populations who meet the criteria for this procedure.	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.100	2.15.1	The proposed project will enhance the current health care delivery system by adding a Screening, Brief Intervention and Referral to Treatment model (SBIRT) in the AccessHealth FQHC clinic in Richmond, Texas. This evidence-based model includes: Screening: Universal screening for quickly assessing use and severity of alcohol, illicit drugs, and prescription drug abuse.	Continuing as Core Activity in DY7-8	
RHP 3_296760601.2.101	2.13.1	Fort Bend County proposes to develop a continuum of care that is based on evidence based practices for target group (persons with severe mental illness and / or mental illness and physical health conditions) identified as high risk for recidivism due to homeless/ lack of stable housing, prior history of non compliance, lack of access to services, complex trauma, lack of family supports and /or lack of integrated care to address complex needs.	Continuing as Core Activity in DY7-8	

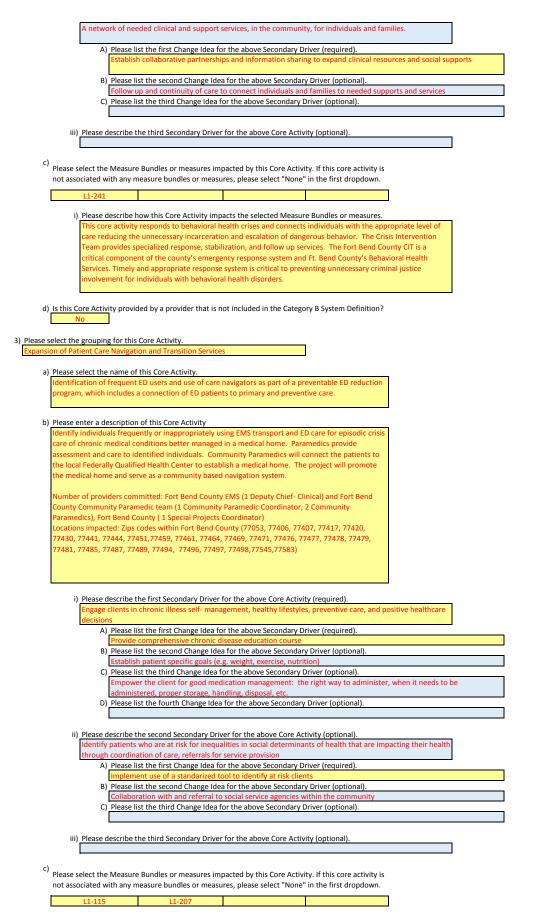

Section 2: Core Activities

Please enter your organization's number of Core Activities: 8	
1) Please select the grouping for this Core Activity.	
Expansion of Patient Care Navigation and Transition Services	
a) Please select the name of this Core Activity.	
Provision of navigation services to targeted patients (e.g., patients with multiple chronic conditions,	
cognitive impairments and disabilities, Limited English Proficient patients, the uninsured, those with	
low health literacy, frequent visitors to the ED, and others)	
b) Please enter a description of this Core Activity	
Identification and referral of frequent or inappropriate users of the Emergency Medical Service	
transport system or Emergency Department care setting for chronic conditions that would be better	
managed in a medical home with proactive care, coaching and resolution of one or more negative	
social determinants of health, thus avoiding episodic crisis interventions.	
Number of providers committed: AccessHealth, FQHC (1 LVN - Care Coordination Manager, Director	
of Reporting and Analytics, 1 Dietician, 1 LVN, 2 CHWs), Fort Bend County (1 Special Projects	
Coordinator)	
Locations impacted: AccessHealth, FQHC Adult Clinic at Richmond and Missouri City locations

Section 4: Category A Core Activities Associated with Category C Measure Bundles/Measures

Yes

rvention	Implementation of strategies to reduce tobacco use (Example of evidence based models: SR's (Relevance, Risks, Rewards, Roadblocks, Repetition) for patients not ready to quit; Ottawa Model; Freedom From Smoking Curriculum- American Lung Association among others)
prectal Cancer Screening	Other - Implement Evidence-based Disease Prevention Programs – Colonoscopy Screening
	Provision of navigation services to targeted patients (e.g., patients with multiple chronic conditions, cognitive impairments and disabilities, Limited English Proficient patients, the uninsured, those with low health literacy, frequent visitors to the ED, and others); Identification of frequent ED users and use of care navigators as part of a preventable ED reduction program, which includes a connection of ED patients to primary and preventive care.
d next available appointment	Expanded Practice Access (e.g., increased hours, telemedicine, etc.)
petes care: BP control (<140/90mm Hg)	Provision of navigation services to targeted patients (e.g., patients with multiple chronic conditions, cognitive impairments and disabilities, Limited English Proficient patients, the uninsured, those with low health literacy, frequent visitors to the ED, and others); Identification of frequent ED users and use of care navigators as part of a preventable ED reduction program, which includes a connection of ED patients to primary and preventive care.
rease in mental health admissions and readmissions to criminal justice	Provision of crisis stabilization services based on the best practices (e.g., Critical Time Intervention, Critical Intervention Team, START model),; Provision of services to individuals that address social determinants of health and/or family support services.; Implement models supporting recovery of individuals with behavioral health needs.
rv oro 09 d	vention ectal Cancer Screening brehensive Diabetes Care: Hemoglobin A1c (HbA1c) Poor Control %) next available appointment etes care: BP control (<140/90mm Hg) ease in mental health admissions and readmissions to criminal justice

Do you confirm the information in this section and acknowledge the understanding of limited allowed changes as described in the Program Funding and Mechanics Protocol and Measure Bundle Protocol?

Yes

Section 5: Category D Valuations

Statewide Reporting for LHDs

Measure	Category D valuation per DY distributed across measures (if regional hospital participation requirement is met)	Category D valuation per DY distributed across measures (if regional hospital participation requirement is <u>not</u> met)
Time Since Routine Checkup	\$121,070.98	\$40,356.99
High Blood Pressure Status	\$121,070.98	\$40,356.99
Diabetes Status	\$121,070.98	\$40,356.99
