

# Imprivata On-Site Enrollment for Citrix Remote Access

This reference guide provides an overview and step-by-step instructions for completing self-enrollment in Imprivata Multi-Factor Authentication (MFA) for Citrix remote access. Enrollment must be completed using a workstation connected to the Harris Health Network.

The target audience for this reference guide is Clinicians, Administrative Staff and Contractors.

## Overview

Citrix users can self-enroll their smartphones for multi-factor authentication through Imprivata. Once enrolled, they will receive a soft token on their phone to use as a second authentication factor alongside their network credentials when accessing the Harris Health network via Citrix.

The instructions below outline the steps to complete the enrollment process using a workstation on the Harris Health network.

### **IMPORTANT:**

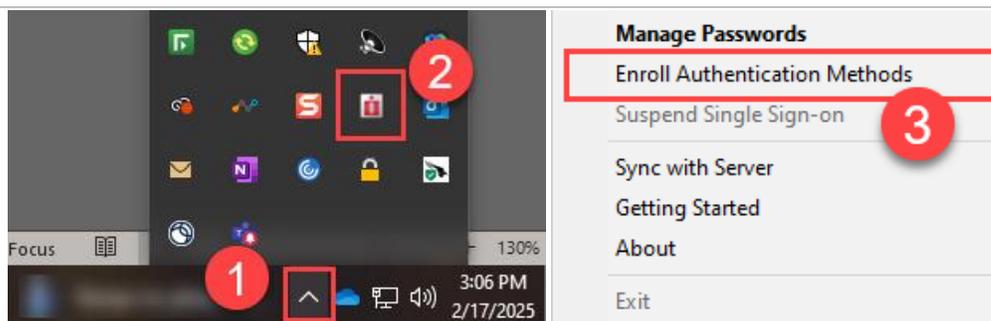

If you replace your mobile device or uninstall/re-install the Imprivata application, you will be required to re-enroll.

Please call the IT Service Desk (713.566.4357) to remove your old phone prior to re-enrolling.

To re-enroll in the Electronic Prescribing of Controlled Substances, contact Medical Staff Services.

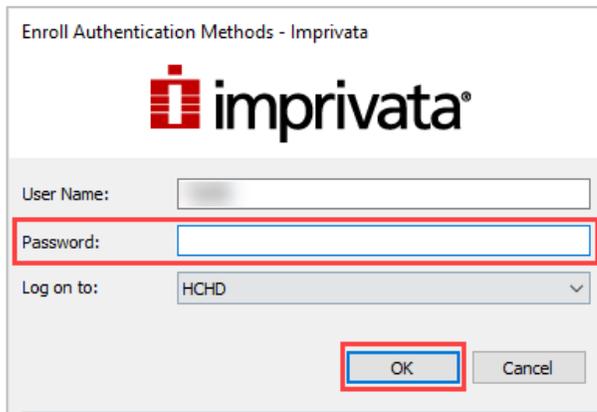

## Enrolling via a Harris Health Network Workstation

1. Click the **Show Hidden** icon located at the bottom right corner of computer screen.
2. Click the **Imprivata Agent** icon.
3. Click Enroll Authentication Methods.

8. The following pop-ups will appear on your smartphone as you set up the app. Please follow these actions to ensure proper functionality.

**Note:** The exact wording of these pop-ups may vary slightly depending on your device, but the steps remain the same.

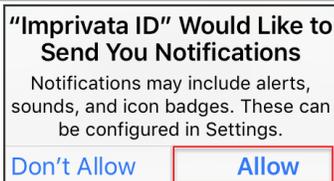

- a) Fast Access: **Turn on** or enable this feature to verify your identity with a simple tap.

- b) Simplified E-Prescribing: **Turn On** to enable e-prescribing.

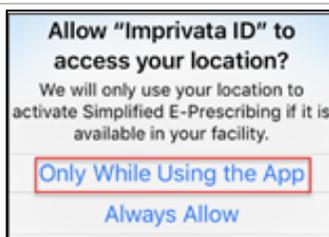

If this functionality will not be used, tap **Not Now** instead.

- c) Notifications: Tap Allow to enable app notifications.

- d) Location Services: Tap **Only While Using the App** to allow location access when using the app.

15. Verify that the mobile number entered is accurate and click **Next**.

The screenshot shows a web browser window titled "Enroll Authentication Methods - Imprivata". The page header reads "New, User (HCHD)". The main heading is "Enroll SMS code". Below this, there is explanatory text: "SMS is a way to confirm your identity with a one-time code delivered to your mobile phone via a text message (SMS). Enter your mobile phone number with area code. Message and data rates may apply." To the right of the text is a small icon of a smartphone. A text input field contains the number "(713) 555-1212" and is highlighted with a red border. Below the input field is a red button labeled "Next". A link "Do this later" is located below the "Next" button. The Imprivata logo is in the bottom left corner.

16. A **verification code** is sent to your mobile phone via text message.
17. Enter the **verification code** into the designated field.
18. Click **Done**.

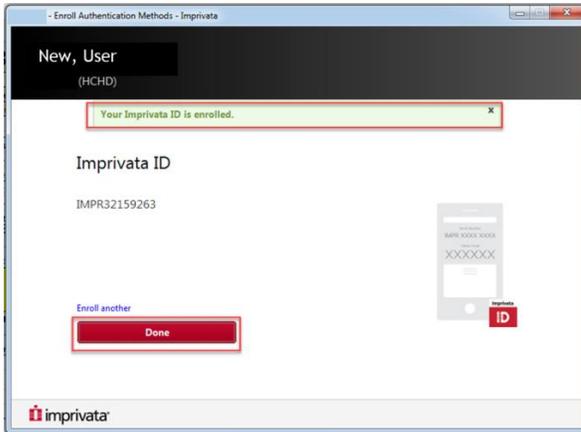

The screenshot shows the same web browser window as above, but the page heading is now "Check your phone". The text reads: "A text message was sent to your mobile phone (713) 555-1212. Enter the verification code from that message." To the right is a smartphone icon. A text input field contains the number "83240" and is highlighted with a red border. Below the input field is a red button labeled "Done". A link "Do this later" is located below the "Done" button. The Imprivata logo is in the bottom left corner.
