

## Four Major Harris Health System Nursing Research Foci

- Healthcare Disparity
- Symptom Management
- Organizational Development
- Disease Management and Population Health

### Proposed Studies for Consideration

- **Healthcare Disparity**
  - Cultural Diversity
  - Socio-economic Challenges
  - Healthcare Literacy
- **Symptom Management**
  - Pain Management/Palliative Care
  - Symptoms/Challenges Associated with Chronic Disease
  - Symptoms/Challenges Associated with HIV
- **Organizational Development**
  - Communities of Practice (CoPs)
  - Learning Organization
  - Creating a Healing Environment
- **Disease Management and Population Health**
  - Delivery System Reform Incentive Payments (DSRIP) Projects with Potential for Aligned Research Projects
    - Current Projects
      - OB Navigation
      - Innovate Center for Quality
      - Physical and Occupational Therapy
      - Mental Health Services

- Disease Management Registry
  - House Calls Program
  - Palliative Care
  - Emergency Center – Advanced Triage
  - Emergency Center – Top Frequenters
- 
- Proposed Projects
    - Remote Patient Monitoring
    - Rothman Index
    - eVisits
    - Expanded Wound Care Services
    - Transitional Diabetes Care Services
    - eConsults
    - Predictive Modeling
