7. Estimated maximum annual increase in the amount of taxes that would be imposed on a residence homestead in the District with an appraised value of \$100,000 to repay the debt obligations to be authorized, if approved, based upon assumptions made by the governing body of the District	\$20.72
8. Other information that the District considers relevant or necessary to explain the foregoing information	See major assumptions listed below.

<sup>(a)</sup> As of the date of adoption of the Bond Election Order by the Harris County Commissioners Court (the “Commissioners Court”).

<sup>(b)</sup> Under Chapter 1251, Texas Government Code, as amended, “debt obligation” is defined as a public security secured by and payable from ad valorem taxes. The term does not include revenue debt or public securities that are designated as self-supporting by the political subdivision issuing the securities. In addition to the District’s debt obligations, as of the date of the adoption of the Bond Election Order by the Commissioners Court, the District has \$212,275,000 of revenue debt outstanding.

<sup>(c)</sup> The Harris County Hospital District does business under the name of and is commonly referred to as the Harris Health System.

<sup>(1)</sup> The estimates contained in this Voter Information Document are (i) based on certain assumptions (including the major assumptions listed on the next page and assumptions concerning prevailing market and economic conditions at the time(s) of issuance of the bonds) and derived from projections obtained from the District’s financial advisor, (ii) subject to change to the extent that actual facts, circumstances and conditions prevailing at the time that the bonds are issued differ from such assumptions and projections, (iii) provided solely in satisfaction of the requirements of Section 1251.052, Texas Government Code, and for no other purpose, without any assurance that such projections will be realized, and (iv) not intended to (and expressly do not) give rise to a contract with voters or limit the authority of Harris County to issue bonds on behalf of the District in accordance with the Proposition set forth in the Bond Election Order.

Major assumptions for statements above, including statement 7:

The District does business under the name of and is commonly referred to as the Harris Health System. If approved by the voters, bonds authorized by Proposition A are intended to be issued by the Commissioners Court on behalf of the District in a manner and in accordance with a schedule to be determined by the District’s Board of Trustees in consultation with the Commissioners Court based upon a number of factors, including, but not limited to, the then current needs of the District, demographic changes, prevailing market conditions, then current market interest rates, the use of capitalized interest, assessed valuations of property in the District, tax collection percentages, and management of the District’s short-term and long-term interest rate exposure. The estimated tax impact is derived, in part, from projections obtained from the District’s financial advisor. Actual results may vary from the assumptions used in calculating the estimated tax impact. For the purposes of estimating the maximum annual increase in taxes identified in this table, the District utilized the following major assumptions:

- The District has assumed the issuance of multiple series of bonds over a period of years for the projects described in Proposition A. For the purposes of these projections, it has been assumed that each series of bonds issued under Proposition A would be amortized over 25 years as shown in the pro forma amortization schedule attached hereto as Exhibit A. The pro forma amortization schedule is based the assumptions outlined in this Voter Information Document. It shows the District’s currently outstanding bonds and the bonds authorized under Proposition A.
- The District has assumed the bonds to be issued under Proposition A will bear interest at an estimated rate of 5.25% for bonds issued in 2024, 5.50% for bonds issued in 2027, 6.00% for bonds issued in 2028, and 6.00% for bonds issued in 2031, based on current market conditions.
- The District’s tax year 2023 certified estimated taxable assessed valuation as provided by the Harris Central Appraisal District as of July 25, 2023 is \$644,032,271,061. The tax year 2023 certified estimated taxable assessed valuation within the District is a projected increase of 12.51% from the tax year 2022 certified estimate. The District has assumed that the taxable assessed value within the District will grow at a rate of 3% for the next year, 2% for the next 3 years, 1% for the next 4 years, and 0% per year thereafter. Projected taxable assessed valuation growth is described for purposes of illustration only.
- The District has assumed a tax collection percentage of 98%.
- In calculating the tax impact on a residence homestead, the District applied the \$20,000 general homestead exemption to the average assessed market valuation of \$100,000, resulting in a taxable value of \$80,000 on a residence homestead with an appraised value of \$100,000. The District did not apply any other exemptions in connection with this calculation. A homeowner may qualify for exemptions not considered in calculating the tax impact, such as exemptions for the elderly and the disabled.
